PROGRAM OUTCOMES(PO's)

1. **Engineering knowledge** : Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems
2. **Problem analysis** : Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences
3. **Design/development of solutions** : Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations
4. **Conduct investigations of complex problems** : Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
5. **Modern tool usage** : Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations
6. **The engineer and society** : Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice
7. **Environment and sustainability** : Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development
8. **Ethics** : Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice
9. **Individual and team work** : Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings
10. **Communication** : Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions
11. **Project management and finance** : Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments
12. **Life-long learning** : Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change

PROGRAM SPECIFIC OUTCOMES(PSO's)

PSO 1 : Identify the root cause of a problem, formulate and solve it using engineering knowledge, modern tools, imagination and innovation

PSO 2 : Apply the knowledge acquired in practical life with social and ethical commitment to achieve environmental safety and self-sustainability

PSO 3 : Function competently as an individual/part of multidisciplinary teams, of industry/educational/ research organization with extraordinary communication skills and leadership qualities

Objectives: <ol style="list-style-type: none">1 . To know about Fundamentals of Communicative English and Communication Skills in general2 . To train to identify the nuances of phonetics, intonation and enhance pronunciation skills for better Communication skills.3 . To impart basic English grammar and essentials of important language skills4 . To enhance with English vocabulary and language proficiency for better communication skills5 . To learn about Techniques of Information Transfer through presentation	
Course Outcomes (COs) : <ol style="list-style-type: none">1 . Understand and apply the Fundamentals of Communication Skills in their communication skills2 . Identify the nuances of phonetics, intonation and enhance pronunciation skills3 . To impart basic English grammar and essentials of language skills as per present requirement4 . Understand and use all types of English vocabulary and language proficiency5 . Adopt the Techniques of Information Transfer through presentation	

6 . Course Information

6 . 1 . 1 Course Syllabus

Objectives:

Title of the Course : COMMUNICATIVE ENGLISH

Subject Code : BENGK106

Module 1

Introduction to Communicative English :

Communicative English, Fundamentals of Communicative English, Process of Communication, Barriers to Effective Communicative English, Different styles and levels in Communicative English, Interpersonal and Intrapersonal Communication Skills

Module 2

Introduction to Phonetics :

Phonetic Transcription, English Pronunciation, Pronunciation Guidelines to consonants and vowels, Sounds Mispronounced, Silent and Non silent Letters, Syllables and Structure, Word Accent, Stress Shift and Intonation, Spelling Rules and Words often Misspelt, Common Errors in Pronunciation

Module 3

Basic English Communicative Grammar and Vocabulary PART - I :

Grammar: Basic English Grammar and Parts of Speech, Articles and Preposition, Question Tags, One Word Substitutes, Strong and Weak forms of words, Introduction to Vocabulary, All Types of Vocabulary – Exercises on it

Module 4

Basic English Communicative Grammar and Vocabulary PART - II :

Words formation - Prefixes and Suffixes, Contractions and Abbreviations, Word Pairs (Minimal Pairs) – Exercises, Tense and Types of tenses, The Sequence of Tenses (Rules in use of Tenses) and Exercises on it

Module 5

Communication Skills for Employment :

Information Transfer: Oral Presentation and its Practice, Difference between Extempore/Public Speaking, Communication Guidelines, Mother Tongue Influence (MTI), Various Techniques for Neutralization of Mother Tongue Influence, Reading and Listening Comprehensions – Exercises

PROGRAM OUTCOMES(PO's)

1. **Engineering knowledge** : Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems
2. **Problem analysis** : Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences
3. **Design/development of solutions** : Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations
4. **Conduct investigations of complex problems** : Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
5. **Modern tool usage** : Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations
6. **The engineer and society** : Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice
7. **Environment and sustainability** : Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development
8. **Ethics** : Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice
9. **Individual and team work** : Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings
10. **Communication** : Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions
11. **Project management and finance** : Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments
12. **Life-long learning** : Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change

PROGRAM SPECIFIC OUTCOMES(PSO's)

PSO 1 : Identify the root cause of a problem, formulate and solve it using engineering knowledge, modern tools, imagination and innovation

PSO 2 : Apply the knowledge acquired in practical life with social and ethical commitment to achieve environmental safety and self-sustainability

PSO 3 : Function competently as an individual/part of multidisciplinary teams, of industry/educational/ research organization with extraordinary communication skills and leadership qualities

PROGRAM OUTCOMES(PO's)

1. **Engineering knowledge** : Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems
2. **Problem analysis** : Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences
3. **Design/development of solutions** : Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations
4. **Conduct investigations of complex problems** : Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
5. **Modern tool usage** : Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations
6. **The engineer and society** : Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice
7. **Environment and sustainability** : Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development
8. **Ethics** : Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice
9. **Individual and team work** : Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings
10. **Communication** : Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions
11. **Project management and finance** : Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments
12. **Life-long learning** : Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change

PROGRAM SPECIFIC OUTCOMES(PSO's)

PSO 1 : Identify the root cause of a problem, formulate and solve it using engineering knowledge, modern tools, imagination and innovation

PSO 2 : Apply the knowledge acquired in practical life with social and ethical commitment to achieve environmental safety and self-sustainability

PSO 3 : Function competently as an individual/part of multidisciplinary teams, of industry/educational/ research organization with extraordinary communication skills and leadership qualities

6 . 1 Course Content

Title of the Course : COMMUNICATIVE ENGLISH

Semester : 1

Academic Year : 2022-23

Subject Code : BENGK106	IA Marks : 50
Hours/week : 1	Total Hours : 15
Exam Hours : 1	Exam Marks : 50
Course Plan Author : Pavana	Planned Date : 2022-12-12
Approved by : Prof Deepak Shetty	Approved Date : 2022-12-12

Objectives:

- 1 . To know about Fundamentals of Communicative English and Communication Skills in general
- 2 . To train to identify the nuances of phonetics, intonation and enhance pronunciation skills for better Communication skills.
- 3 . To impart basic English grammar and essentials of important language skills
- 4 . To enhance with English vocabulary and language proficiency for better communication skills
- 5 . To learn about Techniques of Information Transfer through presentation

Course Outcomes (COs) :

- 1 . Understand and apply the Fundamentals of Communication Skills in their communication skills
- 2 . Identify the nuances of phonetics, intonation and enhance pronunciation skills
- 3 . To impart basic English grammar and essentials of language skills as per present requirement
- 4 . Understand and use all types of English vocabulary and language proficiency
- 5 . Adopt the Techniques of Information Transfer through presentation

6 . Course Information

6 . 1 . 1 Course Syllabus

Objectives:

Title of the Course : COMMUNICATIVE ENGLISH

Subject Code : BENGK106

Module 1

Introduction to Communicative English :

Communicative English, Fundamentals of Communicative English, Process of Communication, Barriers to Effective Communicative English, Different styles and levels in Communicative English, Interpersonal and Intrapersonal Communication Skills

Module 2

Introduction to Phonetics :

Phonetic Transcription, English Pronunciation, Pronunciation Guidelines to consonants and vowels, Sounds Mispronounced, Silent and Non silent Letters, Syllables and Structure, Word Accent, Stress Shift and Intonation, Spelling Rules and Words often Misspelt, Common Errors in Pronunciation

Module 3

Basic English Communicative Grammar and Vocabulary PART - I :

Grammar: Basic English Grammar and Parts of Speech, Articles and Preposition, Question Tags, One Word Substitutes, Strong and Weak forms of words, Introduction to Vocabulary, All Types of Vocabulary – Exercises on it

Module 4

Basic English Communicative Grammar and Vocabulary PART - II :

Words formation - Prefixes and Suffixes, Contractions and Abbreviations, Word Pairs (Minimal Pairs) – Exercises, Tense and Types of tenses, The Sequence of Tenses (Rules in use of Tenses) and Exercises on it

Module 5

Communication Skills for Employment :

Information Transfer: Oral Presentation and its Practice, Difference between Extempore/Public Speaking, Communication Guidelines, Mother Tongue Influence (MTI), Various Techniques for Neutralization of Mother Tongue Influence, Reading and Listening Comprehensions – Exercises
