First Year Engineering Students

Preamble

The placement tips and tricks session conducted by Dr. Pradeepa, Placement Dean of BMS College of Engineering, for first-year engineering students aimed to provide valuable guidance and insights related to placements and career development. The session was organized with the objective of familiarizing the students with the placement process, enhancing their employability, and motivating them to start building a strong foundation for their future careers from the first year itself.

BRIEF PROFILE OF TRAINER

About

Dr S Pradeepa received her Ph.D degree in Nov(2014) on Power Quality Improvement in Electrical Engineering from Visvesvaraya Technological University, Belgaum. She holds M.E degree in the area of Power Electronics from Bangalore University and B.E degree in Electrical & Electronics Engineering from Annamalai University. Her service in B.M.S.C.E is since 1993. Her research includes Harmonic analysis and Power Converters.

REPORT

The following report presents an overview of a session held On 17/03/2023, a placement tips and tricks session was organized for first-year engineering students at MITK. The session aimed to provide valuable insights and guidance to the students regarding placements and career development. The session was conducted by Dr. Pradeepa, the esteemed Placement Dean of BMS College of Engineering.

Objectives:

The main objectives of the session were as follows:

Familiarize first-year engineering students with the placement process and its importance.

Provide an overview of the skills, attributes, and experiences sought by recruiters.

Offer tips and strategies to enhance employability and prepare for future placements.

Motivate students to start building a strong foundation for their career from the first year itself.

Session Content:

The session covered various aspects related to placements and career development, including:

3.1 Importance of Placements:

Dr. Pradeepa emphasized the significance of placements in shaping the students' future careers. She highlighted the role of placements in providing opportunities for practical exposure, industry insights, and professional growth.

3.2 Key Skills and Attributes:

The session focused on the skills and attributes valued by recruiters. Dr. Pradeepa discussed the importance of communication skills, problem-solving abilities, teamwork, adaptability, and leadership qualities. She encouraged students to develop these skills throughout their academic journey.

3.3 Resume Building:

Dr. Pradeepa provided valuable insights on crafting an effective resume that highlights academic achievements, projects, internships, and relevant skills. She shared tips on organizing information, using appropriate language, and tailoring the resume to suit different job profiles.

3.4 Personal Branding:

The session stressed the significance of personal branding in the digital age. Dr. Pradeepa discussed the role of social media platforms, such as LinkedIn, in showcasing one's professional profile. She offered guidance on creating a strong online presence and maintaining a positive image.

3.5 Interview Preparation:

Dr. Pradeepa provided valuable tips on interview preparation. She covered topics such as researching the company, practicing common interview questions, and developing effective body language and communication skills. Mock interview scenarios were also discussed to familiarize students with the interview process.

3.6 Industry Insights:

To provide students with insights into the industry expectations, Dr. Pradeepa shared reallife experiences and examples. She discussed current industry trends, emerging technologies, and the importance of staying updated with the latest advancements.

Outcomes of the Session:

The placement tips and tricks session conducted by Dr. Pradeepa, Placement Dean of BMS College of Engineering, for first-year engineering students yielded several positive outcomes. The session aimed to provide valuable guidance and insights related to placements and career development. Here are the key outcomes of the session:

Understanding of the Placement Process:

The students gained a clear understanding of the placement process, including its significance in shaping their future careers. They became aware of the various stages involved, such as resume submission, interviews, and selection procedures.

Awareness of Key Skills and Attributes:

Students became familiar with the key skills and attributes sought by recruiters in potential candidates. They recognized the importance of developing communication skills, problem-solving abilities, teamwork, adaptability, and leadership qualities to enhance their employability.

Resume Building and Personal Branding:

The session provided students with valuable insights on resume building. They learned how to effectively organize information, highlight their academic achievements, projects, internships, and relevant skills to create an impactful resume. Additionally, students gained an understanding of the importance of personal branding and maintaining a positive online presence through platforms like LinkedIn.

Interview Preparation:

Students received practical tips and strategies for interview preparation. They learned how to research companies, practice common interview questions, and develop effective body language and communication skills. The session equipped them with the confidence and knowledge to perform well in interviews.

Industry Insights:

Students gained valuable industry insights through real-life experiences shared by Dr. Pradeepa. They became aware of current industry trends, emerging technologies, and the

importance of staying updated with the latest advancements. This knowledge will enable them to align their skills with industry requirements.

Motivation and Confidence:

The session motivated students to start building a strong foundation for their careers from the first year itself. They gained confidence in their abilities to navigate the placement process and understood the importance of continuous learning and skill development.

Engagement and Interaction:

The session facilitated active engagement and interaction between Dr. Pradeepa and the students. Students had the opportunity to ask questions, seek personalized guidance, and clarify their doubts. This interaction created a supportive and inclusive learning environment.

Long-term Career Development:

The session served as a foundation for students' long-term career development. It provided them with the necessary knowledge and skills to enhance their employability and succeed in future placements. Students gained insights and strategies that will benefit them throughout their academic and professional journey.
