Event : "Eco friendly campus program"
Organized On : 20th September 2018
Place : MITK campus
Participants : Students from CSE, ECE ,Civil and Mechanical
Report Prepared by : Prof. Balanageshwar

PREAMBLE

The National Service Scheme (NSS) unit of Moodlakatte Institute of Technology (MIT) organized an eco-friendly campus program on 20/09/2018. This program aimed to promote environmental awareness and encourage sustainable practices within the institutes community. The program witnessed enthusiastic participation from NSS volunteers, students, faculty members, and staff.

REPORT

In an effort to promote environmental responsibility and create a more sustainable learning environment, the National Service Scheme (NSS) unit of our college is thrilled to announce the launch of a brand new eco-friendly campus program! This initiative is designed to engage students, faculty, and staff in a variety of activities that will reduce our campus's environmental footprint and foster a culture of conservation.

Activities Undertaken:

1. **Guest Lecture:** The program commenced with a guest lecture by a by NSS coordinator. The lecture focused on the current environmental challenges faced by our planet and emphasized the significance of individual and collective action in environmental protection.
2. **Tree Plantation Drive:** NSS volunteers, along with students and staff, actively participated in a tree plantation drive within the institute campus. This activity not only contributed to increasing the green cover but also served as a symbolic gesture towards environmental rejuvenation
3. **Cleanliness Drive:** A cleanliness drive was conducted throughout the institute campus, emphasizing the importance of maintaining a clean and healthy environment. Participants actively collected waste materials and segregated them for proper disposal or recycling.
4. **Exhibition on Sustainability:** An exhibition showcasing sustainable practices was organized. This exhibition could include stalls displaying eco-friendly products, information on renewable energy sources, composting techniques, and rainwater harvesting methods. Experts could be present at the stalls to answer questions and provide guidance to the attendees.

Impact and Outcomes:

The eco-friendly campus program organized by the MIT NSS unit was a resounding success. The program not only achieved its objectives of raising awareness and promoting sustainable practices but also fostered a sense of community spirit and environmental responsibility among the participants

Key impacts of the program

- Increased awareness about environmental issues and the importance of sustainability..
- Enhanced knowledge about eco-friendly practices that can be adopted in daily life.
- Active participation in environmental conservation efforts like tree plantation and cleanliness drives.
- A sense of ownership and responsibility towards protecting the environment within the campus community.
- Creation of a platform for open dialogue and exchange of ideas on environmental issues.

ORGANIZING COMMITTEE

Staff co-coordinators:

Prof. Balanageshwar, NSS Coordinator

Prof. Sookshma Adiga, Dept of ECE

.

Feedback

The eco-friendly campus program organized by the MIT NSS unit serves as a commendable example of how educational institutions can play a vital role in promoting environmental consciousness and sustainability.

These programs can significantly reduce a campus's environmental footprint by conserving energy, water, and resources, and promoting waste reduction and recycling. Eco-friendly programs can raise environmental awareness among students, faculty, and staff, fostering a culture of sustainability. Initiatives that involve student participation, like clean-up drives or community gardens.
