Preamble:

The Training & Placement Cell at MIT Kundapura organized an enriching "Industry Insight Program" on 04/01/2020 at the Seminar Hall. This program aimed to bridge the gap between classroom learning and industry requirements for third and final-year students specializing in Computer Science Engineering (CSE) and Electronics and Communication Engineering (ECE). The session featured Mr. Vivek Bhat, the Center Manager at HP Enterprise, who engaged with students, sharing valuable insights into industry projects and shedding light on the company's recruitment procedures. Accompanying him was Mr. Deepak, HR Manager at HP Enterprise, who provided an overview of the North India HP pool drive through a videoclip.

Objective: The primary objective of the Industry Insight Program was to provide students with a real-world perspective on industry projects, recruitment procedures, and the expectations of leading companies. The session aimed to prepare CSE and ECE students for potential job opportunities by exposing them to practical insights and information.

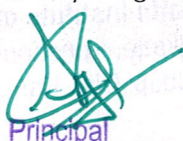

Session Highlights:

1. **Interactive Session with Mr. Vivek Bhat:** Mr. Vivek Bhat shared his experiences and insights into industry projects, emphasizing the practical applications of classroom learning.
2. **Recruitment Procedures at HP Enterprise:** Students received detailed information about HP Enterprise's recruitment processes, allowing them to better prepare for upcoming opportunities.
3. **Review of North India HP Pool Drive:** Mr. Deepak provided an insightful review of the North India HP pool drive through a videoclip, offering students a glimpse into the company's recruitment standards.
4. **Upcoming Recruitment Plans:** Students were informed about HP Enterprise's plans to recruit candidates from the CSE and ECE branches in January 2018, specifically for the Mangalore region.
5. **Q&A Session:** An interactive question and answer session allowed students to clarify doubts and seek additional information about the company and its recruitment procedures.

Outcome: The Industry Insight Program successfully met its objectives, providing students with valuable insights into industry practices and preparing them for potential job opportunities. Students gained a better understanding of HP Enterprise's expectations, recruitment processes, and upcoming plans for hiring in the Mangalore region.

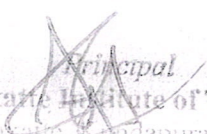

The direct interaction with industry professionals allowed students to comprehend the practical applications of their academic knowledge and align their skill sets with industry requirements. The information shared during the session empowered students to proactively prepare for future job opportunities.

Feedback: Feedback from the students was overwhelmingly positive. They appreciated the opportunity to interact with Mr. Vivek Bhat and Mr. Deepak, finding their insights and information about the industry invaluable. The review of the North India HP pool drive through the videoclip was particularly enlightening, providing students with a realistic view of the recruitment process.
